

To the FCC; I would like you to know that that K-love station or repeater in our area which is Julian California needs to stay operating for the benefit of the community I believe by taking us away from the community the positive input this has on the community and to people listening would definitely be not good I believe the positive input that that K-love station puts out by playing positive music and uplifting positive contact would be devastating to the community, so in ending please keep K-LOVE a LPFM station and don't take it away from us..... thank you very much..... Ron
